

1. This section shouldn't scroll

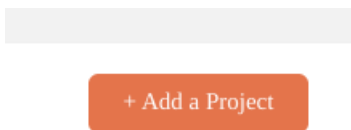

2. This should be only in financial management.

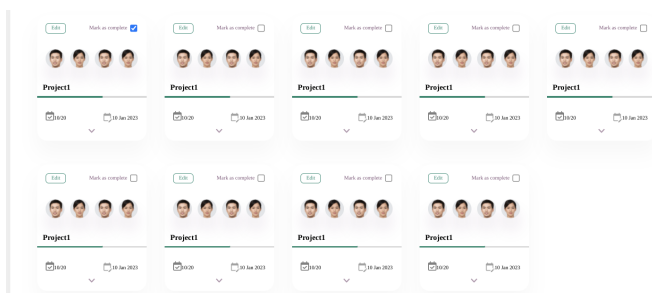

3. We should be able to click on this and it will show a dropdown with options - ERP , CRM , POS

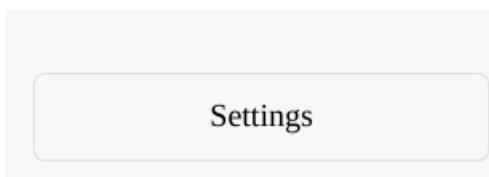

4. Clicking on this should open the create project popup

5. I am not able to read the texts in this section. Can you increase the size of everything .button , text , checkbox.....

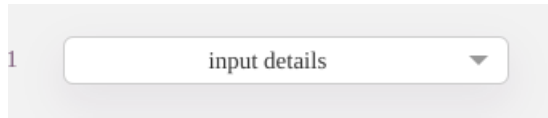

6. There should be a settings page.

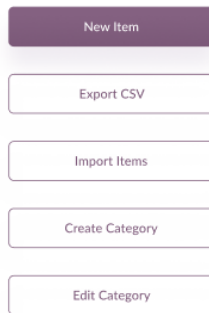

7. Clicking on edit should show edit popup.

8. This is not a popup. It should expand when we click on it.

- 9. All the texts are difficult to see. Increase the size.
- 10. See the figma file. Inventory management has some changes.
- 11. All these buttons should show the respective popups.

- 12. Make these changes in supplier , financial and warehouses also.
